Lady J Huston

Hide-Away (REMIX)

HIDE-AWAY is a true story about moving on with life in another city after the end of a love affair. Musically, it's a Blues ballad with layers of Jazz and an up-tempo Funk interlude. **Lady J** was exposed to multiple music genres growing up in St. Louis and performed in dance groups, Drum Corps, Marching Bands; Funk, Blues, Go-Go Bands, & Big Jazz Bands in St. Louis, and while a music composition major with the Howard University Jazz Ensemble (WASHINGTON, DC).

Her goal was to mesh all of those influences into her own Big Band arrangement which came into fruition with **The Jazz Edge Orchestra** (ST. LOUIS, MO). The original recording was released in 2019 under the auspices of the St. Louis Blues Society which Lady J is eternally grateful for. After joining forces with Earwig Music in 2022, they wanted to revive it with a different mix and re-introduce it to the masses.
