Groove Me Baby

“Groove Me Baby” is a seductive ode to romance at its highest peak of self-indulgence and forever longing for the partner that makes you feel so good inside it makes you wanna shout! Lady J Huston’s talents as a songwriter, arranger, trumpeter and vocalist with a 4-octave range is fully represented here. The song with its bluesy, soulful exuberance and moans, blends the styles of R&B, Retro-Soul and Blues that lovers will especially enjoy spooning to.

“Lady J’s got her groove on and she blows a mean trumpet too! Made me get up and dance, sing-a-long and made me wanna holler.” – MICHAEL FRANK, CEO - EARWIG MUSIC COMPANY

“This is a great new song. I’ll add to my rotation right away!”
